NEUTRAL CABLES WILL BE CLOSED TO SPY SUSPECTS

The Government is about to deny cable communications with neutral countries to a number of persons in the United States, including some American citizens, on the suspicion that they have furnished information to the enemy on military, naval and commercial operations, says the New York Tribune.

Telegraph and cable companies, it is explained, will be given lists of individuals who have been under surveillance, with instructions to refuse transmission of their messages.

VILLISTA BANDITS ROB TRAIN; KILL 50 TROOPS

EL PASO, Nov. 9.—Villista bandits near Cortal attacked a passenger train en route from Chihuahua City to Juarez and killed practically all of the guard of fifty soldiers, according to reports reaching here.

The attack is said to have been in the early morning. Passengers were robbed of valuables, even including clothing.

Word also has reached here that the Yaqui Indians under command of Matias Mori have defeated the remnants of Colonel Torres' Federal command in the State of Sonora.

MEAT PRICE CUT IN CHICAGO WILL BE U. S. STANDARD

CHICAGO, Nov. 9.—Prices of ham and bacon to the consumer have been cut 5 to 10 cents by the Illinois food administrator. The Government's complete control of the packing industry lends importance to the announcement. While for the moment the cut applies only to Chicago and suburbs, prices set here eventually will serve as the standard for the whole country.

The price of lard and all standard cuts of pork, beef and mutton will be on the list in a week.

The ham and bacon prices are for the whole piece. For the best ham a fair price to the retailer is set at 38 to 31 cents a pound, while a fair price to the consumer is placed at 28 to 26 cents, the lower price being for cash-and-carry-hams, the higher for charged-and-delivered. The consumer should pay for medium grades of ham 20 to 24 cents. The price list places the cost of a pack of corn at 48 to 49 cents to the consumer and medium grades at 40 to 44 cents. Chicago has been paying the butcher from 28 to 29 cents a pound for best ham, sliced.

Intimation that the big packers have not been playing exactly fair with the food administration in the matter of canned vegetables was contained in an order from Washington directing Harry A. Wheeler, State food administrator, to look into the stocks of tinned foods held by the packers. It is particularly desired to know when the stocks were put up. The Government wants to know this with reference to prices paid at the time as compared with present prices.

This season's pack of corn is said to be the largest since 191
